SAC 9716
7 of 9

27 April 1961

TO: [REDACTED] Executive Officer, Office of Training

FROM: [REDACTED] : Additional E & I Training for Certain Personnel
of Project ALASKA

1. I have just learned from the Commander of our 2nd overseas
detachment that the personnel situation is in such condition that he
would like to point toward a repetition of the E & I training to be
given next week for personnel of his command - in accordance with the
following general schedule:

21 - 25 June - Detachment CO and 4 contract agent personnel
25 - 29 June - 5 contract agent personnel

2. This is slightly at variance with verbal information which I had
passed on to you indicating that it was my feeling that this E & I training
for our 2nd group would be concentrated largely in the month of August.
I am passing this information to you without specific names at this time
in order that you might be able to advise me at your earliest convenience
of your capability for conducting this training along the general lines of
the curriculum which was sent me last week by R/S/R/R. I will, of course,
keep you posted of any change in time, though I now believe these to be
fairly firm.
